

PE-RU-NA LAXATIVE- TONIC

"I was taken with a severe headache and cold, which finally brought on constipation and bowel trouble. Physics of all kinds were used, and we were obliged to resort to the fountain syringe for help. I could drink castor oil like water, but it did no good. Salts were of no use. The doctors were puzzled. After using three bottles of Peruna I consider myself entirely well." Mr. John B. Capers, No. 610 Pecan St., Fort Worth, Texas.

Those who object to Liquid Medicine will find Peruna Tablets a desirable remedy for CATARRHAL CONDITIONS.

CHAMP CLARK SEES A UTOPIA

Time Coming When Each Will Get Profit of His Labor, Speaker Says.

"I am fain to believe that the crowning glory of the philosophy, statecraft, humanitarianism and religion of the Twentieth Century will be to devise a scheme whereby every man, and woman too, shall enjoy the usufruct of his or her own labor, and to prevent one greedy soul from monopolizing the toil and sweat of thousands." Camp Clark, Speaker of the House of Representatives, said last week at a banquet of the Chicago Dental Society.

"The signs of the times indicate that that dream is not too fantastic for entertainment," Speaker Clark continued. "That glad era began when N. O. Nelson of St. Louis originated the plan of sharing profits with his employees. I humbly and reverently thank God this day that he is a Missourian."

"Several of the great manufacturing concerns, railroads and insurance companies are establishing pension systems for their employees, disabled by sickness, accident or old age, which put to blush the liberal pension system of the federal government for the soldiers of our various wars. I say blessed be the name of the man forever, without regard to politics or religion, who establishes abiding peace between labor and capital, which should be friends and not enemies."

RAID INTO IRISH SEA.

England Astounded by German Submarines' Activity Near Liverpool.

London, Jan. 30.—The German submarines are on the west coast of England.

Three British merchantmen, one of them the Ben Cruachen, have been torpedoed and sunk by the German submarine U-21 off Fleetwood in the Irish Sea. Their crews, compelled to take to the boats, were rescued by trawlers.

News of this latest drive by the German navy, reaching London tonight is accepted as meaning that from now on the British shipping will be in great danger. So serious is the situation considered that the admiralty has already taken steps to guard all incoming Trans-Atlantic liners.

One of the other steamers sunk was the Linda Blanche.

One Outran the Plunger.

The steamer Graphic, reaching the Mersey tonight, reported that she had been chased by a German submarine, but that, owing to superior speed, had escaped. Her passengers and crew were panic-stricken. Realizing that capture meant taking to the boats and the destruction of the vessel, the captain of the Graphic ordered his lifeboats ready and had the lifebelts passed out. The submarine gave up the chase when the mouth of the Mersey was reached.

The crew of the Ben Cruachen were able to save only a small part of their belongings. The Linda Blanche's complement were more fortunate. They were permitted to get all of their personal effects and to carry them with them into the boats.

Polite to Captives.

He reported that the Germans were very kind, supplied them with cigarettes and explained that they had no choice except to sink their vessel. They also furnished the men with chocolate, as their boats were not supplied with food.

The appearance of the German submarine as far north as Liverpool has created a profound sensation in shipping circles, following the sinking of steamers off the French and Belgian coasts by similar craft.

Supposed West Coast Safe.

These raids on commerce are regarded here as demonstrating that Germany is attempting to carry out the reported threat of Admiral Von Tirpitz to prey on all shipping entering British ports by the use of submarines.

The U-21 is one of the largest German submarines, but it was not believed its cruising radius was sufficient to enable it to reach a point so far from their base.

STORE CUT TWENTY- MILLION DOLLAR MELON

A 50 Per Cent Dividend Was Declared by Sears-Roebuck.

Chicago, Jan. 30.—Directors of Sears, Roebuck & Co. recommended the payment of a 20-million dollar stock dividend to holders of 40 million dollars common stock of the mail order corporation, at a meeting here today.

The new shares of the 50 per cent dividend will be issued against an accumulated surplus of approximately 23½ million dollars, a large part of which has been reinvested in the business.

The resolution adopted by the directors recommending the dividend provided that the distribution should be made April 1 to stockholders of record March 15. A special meeting of stockholders was called for February 23 to approve the board's recommendation and to vote on a plan to increase the authorized amount of the corporation's capital stock from 40 million dollars to 40 million dollars.

MRS. UNRUH IS IMPROVING

It will be good news to the friends of the Ben H. Unruh family to learn that Mrs. Unruh was not burned as severely as was at first supposed. While her burns are severe and quite painful they are not as serious as it was at first believed and with the good care she is receiving at the hospital it will be but a few weeks before she will be back home again. Mr. Unruh was a caller at the Herald office Monday and reported the baby's burns to be but slight, the back of its hands being burned until blistered, but not deep. The child was asleep in the burning room and the mother fought her way through the flames and smoke until she reached and brought it out to safety.—Pawnee Rock Herald.

Farmers, mechanics, railroaders laborers, rely on Dr. Thomas' Eclectic Oil. Fine for cuts, burns, bruises. Should be kept in every home. 25c. and 50c.

THE K. N. G.

The Kansas National Guards are putting in three nights each week drilling, with two extra nights for the non-commissioned officers. Sergeant Lyons is at Minneapolis this week to work with the new company organized at that point and expects to divide his attention during the coming six months between that company and the Great Bend company. During his absence from the Bend the local company is put through the paces by Captain Colegrove and the other officers of the company. The Captain is feeling pretty good over the way the boys take hold. They turn out in spite of the bad weather and are enthusiastic over the work.

IT REALLY DOES RELIEVE RHEUMATISM.

Everybody who is afflicted with Rheumatism in any form should by all means keep a bottle of Sloan's Liniment on hand. The minute you feel pain or soreness in a joint or muscle, bathe it with Sloan's Liniment. Do not rub it. Sloan's penetrates almost immediately right to the seat of pain, relieving the hot, tender, swollen feeling and making the part easy and comfortable. Get a bottle of Sloan's Liniment for 25 cents of any druggist and have it in the house—against Colds, Sore and Swollen joints, Lumbago, Sciatica, and like ailments. Your money back if not satisfied, but it does give almost instant relief. Buy a bottle today.

HAS WORD FROM GERMANY.

Mr. Ferdinand Koett of Rt. 1, was a caller at the Leader office Tuesday. In a letter from a sister in Germany, received last week, she states that she has seven sons enlisted in the war and so far none of them have been injured. Mr. Koett had some literature from Germany that would make mighty interesting reading and was it translated we would like to use it, but our earlier education along that line was somewhat neglected and it is not possible for us to put the matter in shape for the old Mergenthaler, which knows no German, although its inventor and founder was of the good old type of German citizens.

The sister writes that the German people there have no fear but that they will eventually win in this great struggle for what they believe to be their rights, and that when the final call is made for volunteers millions will readily enlist. Everything in a business way is practically normal and has not been materially disturbed, which is quite different from the other warring nations, which are dependent upon other countries for assistance to carry on their warfare.—Ellinwood Leader.

Daniel Bird, of Clarence township, came into the office Monday morning and ordered The Daily Democrat sent to his address for the coming year and also ordered a copy sent to the old home in Virginia. Mr. Bird reported that last week he sold some of his wheat for the highest price he has ever received in this country. He took a load to Pawnee Rock on Wednesday, the market at that time being \$1.33 per bushel, but it is considerably higher at the present time. While in Virginia shortly after the close of the Civil War, Mr. Bird and his father marketed some wheat for \$2.50 per bushel, and he is not going to wait for the price to go that high this time. He and his sons have over thirteen thousand bushels yet on hand, which they will not contract, but will sell just as they haul it to market. As he had a couple of cars of stock on the Kansas City markets last week, he figures that he will have enough spending money for the time being so is not in a hurry to market his grain.

Alton Dale, who has been farming the J. Pelsor farm, west of town, for several years, has about decided to sell out his interests here and move to Stafford county. He owns a farm in the Hudson neighborhood and believes that he can do better by farming his own land than that belonging to some one else. Two of the Dale boys, Elmer and George, are among the big farmers of the Hudson neighborhood, and Joe is farming a few miles from Stafford.

Mr. and Mrs. Clyde Carson have sold their property at the corner of Eleventh and Stone streets to Mr. and Mrs. W. B. King, who moved in the first of the week. Mr. and Mrs. Carson are looking for another home and in the mean time have stored their goods and are staying at the home of Mr. and Mrs. W. J. Sams.

FOOT AND MOUTH DISEASE AT WINFIELD.

Winfield, Kans., Feb. 1.—Holstein cows shipped two weeks ago from Wisconsin to N. W. Wheeler of Mulvane and to J. C. Delaney, a Winfield farmer, have developed foot and mouth disease.

A quarantine district of six by twelve miles, including the local stock yards, was declared today. The Holsteins were bought for milking purposes and are valued at \$400 each. There are eighteen cases of the disease near Winfield on the Delaney farm.

DRY WEATHER INSURANCE.

Dave Campbell, of Route 2, was in the city Saturday and like almost everyone else in town that day, called at the Democrat office to order the new daily sent to his address the coming year. Dave reports that crop conditions out that way seem to be all right and he is of the opinion that we are going to get another big wheat crop the coming year for he is

sure we are going to have plenty of moisture. One reason he has for this opinion is that he is making arrangements for the purchase of a gasoline engine and small pumping plant and is going to put out considerable garden this year, and he believes that if he has an irrigating plant on the place that there will surely be plenty of rain. He will mount his gasoline engine on trucks and will also use it to run the washing machine, pump water for the stock and do other work and will no doubt find that it will be a profitable investment. He expects to have at least one acre of garden truck and will also plant considerable sweet potatoes, potatoes and other such stuff, and unless he has some very bad luck he will find that this patch of ground will be by far the most profitable of any on the farm.

Editor Jas. Townsley and Will Gault, of the Ellinwood Leader, were here to spend Sunday with relatives and friends.

A GROWING BUSINESS

The Democrat office acknowledges receipt of the 1915 catalog from the Hoisington Seed Co., of Hoisington, Kansas. The Hoisington Seed Co. is a part of the business conducted by the Ochs Grain Co., of that city, and is one of the coming concerns of this part of the state. About three years ago the business was started in a small way and has already grown to such dimensions that it is one of the largest enterprises of its kind in the central west. They handle every kind of field, garden and flower seed imaginable, and guarantee all of them to be fresh and pure, and we can recommend them to any of our readers who are going to need anything in their line. The catalog which they have just issued is a handsome 100 page book, printed by the Hoisington Dispatch, and is a piece of work which is a credit to both the Ochs Bros. and the Dispatch office.
